## SUMMARY

I have a broad range of web development talents and am a creative and highly motivated frontend developer. I am quite proficient at hand-coding CSS and HTML, am very familiar with JavaScript, and am well-versed in methods for creating responsive websites and mobile solutions. I enjoy working in a team and am a simple person to talk to. Possess a high level of responsibility and attention to detail. I'm eager to develop my abilities and am passionate about creating first-rate digital products.
